

The Future of Living, Prefab Today

TLC EU **Unit**

A house in symbiosis with nature

The house restores the relationship between people and nature. It redefines human needs that have been rooted for centuries.

In life, only the moments are beautiful.

A family home is more than just a building. By buying a home, we make dreams come true and invest in a lifestyle.

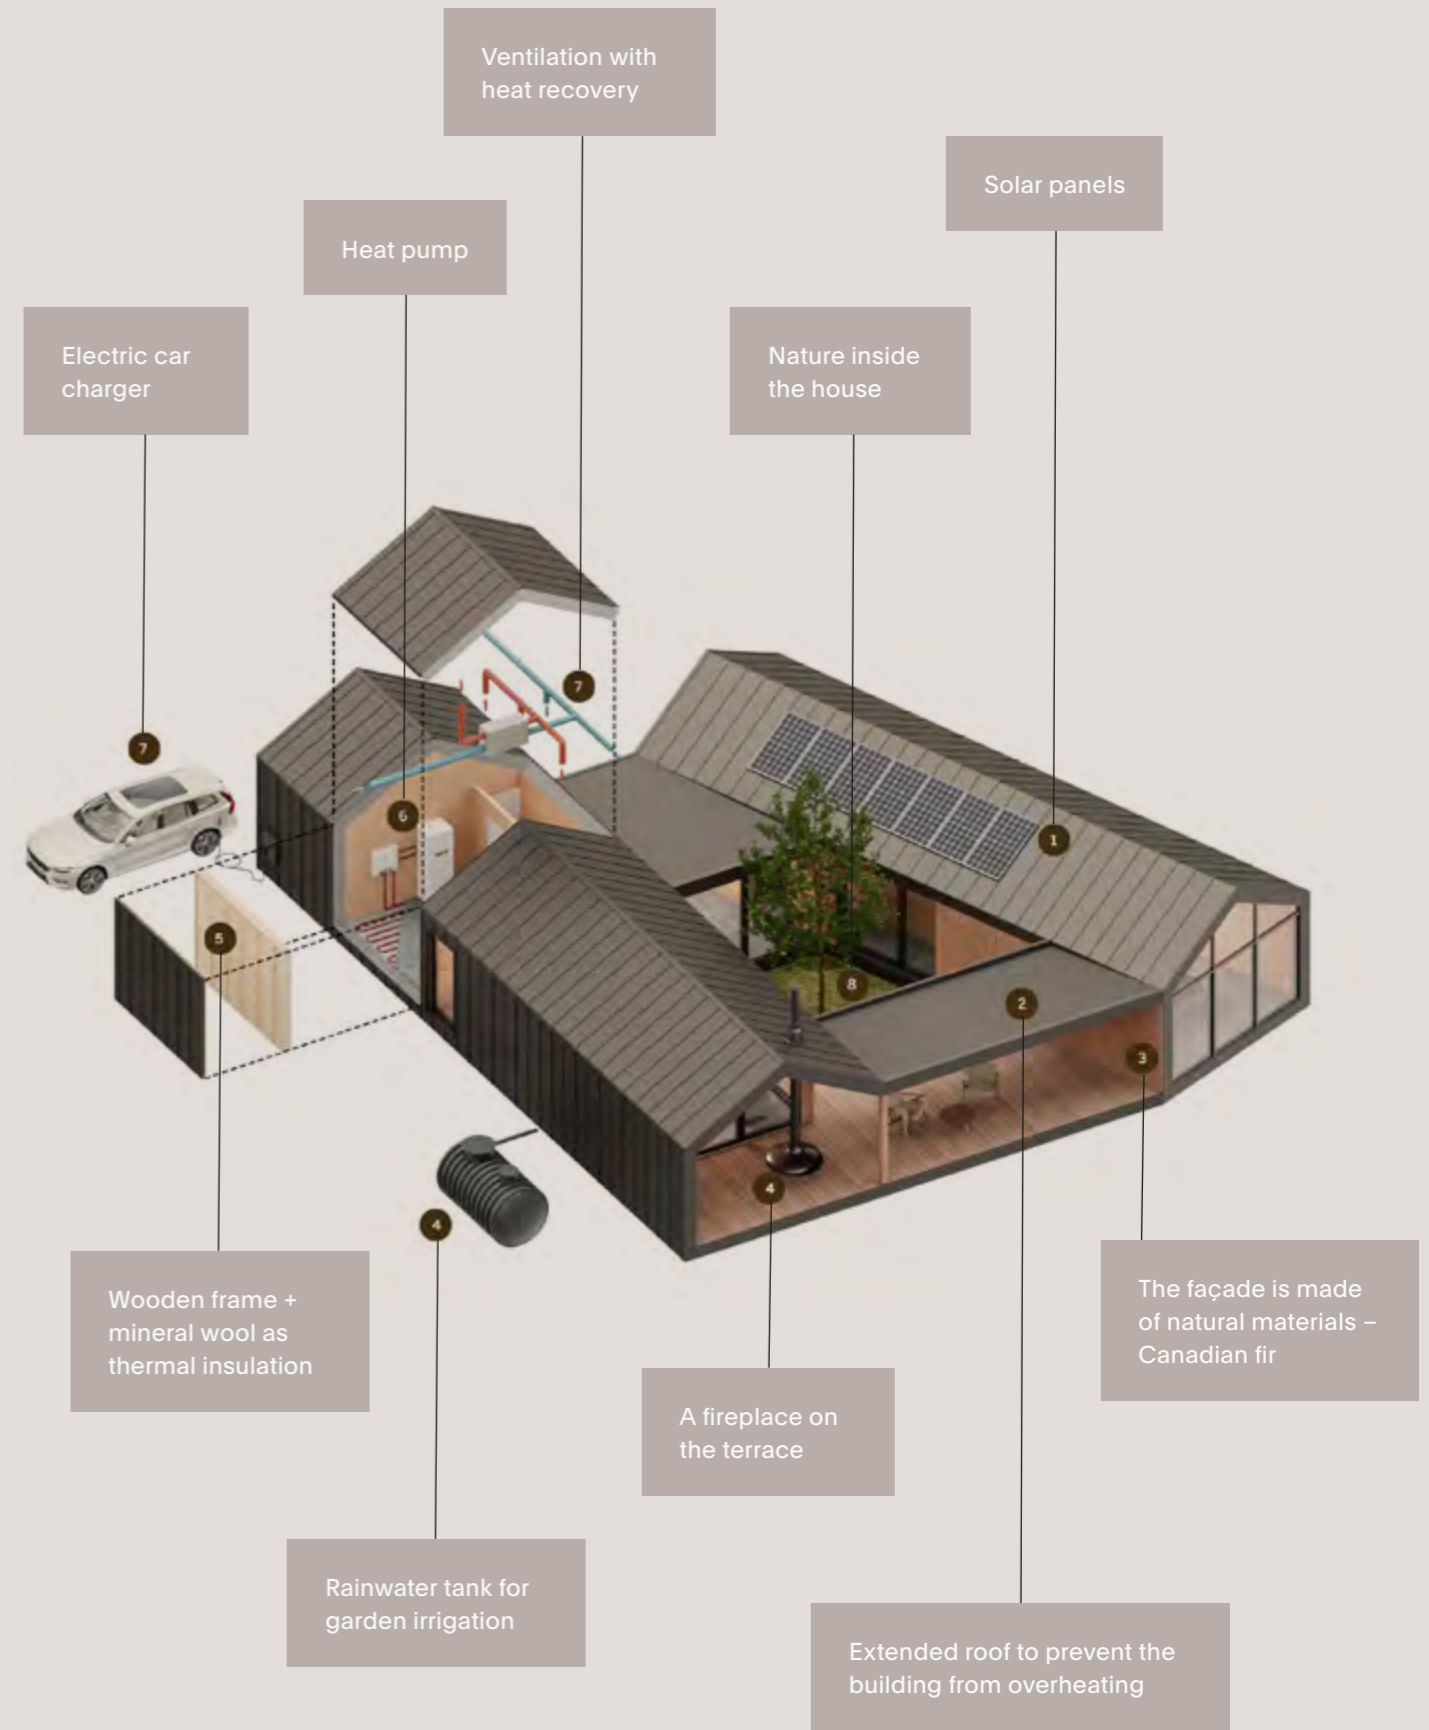

TLC Unit House 1

House 1

Basic module floor plan

TLC Unit House 2

House 2

Basic module floor plan

Individually
designed interiors

When high-quality materials and
modern craftsmanship merge
into a perfect composition.

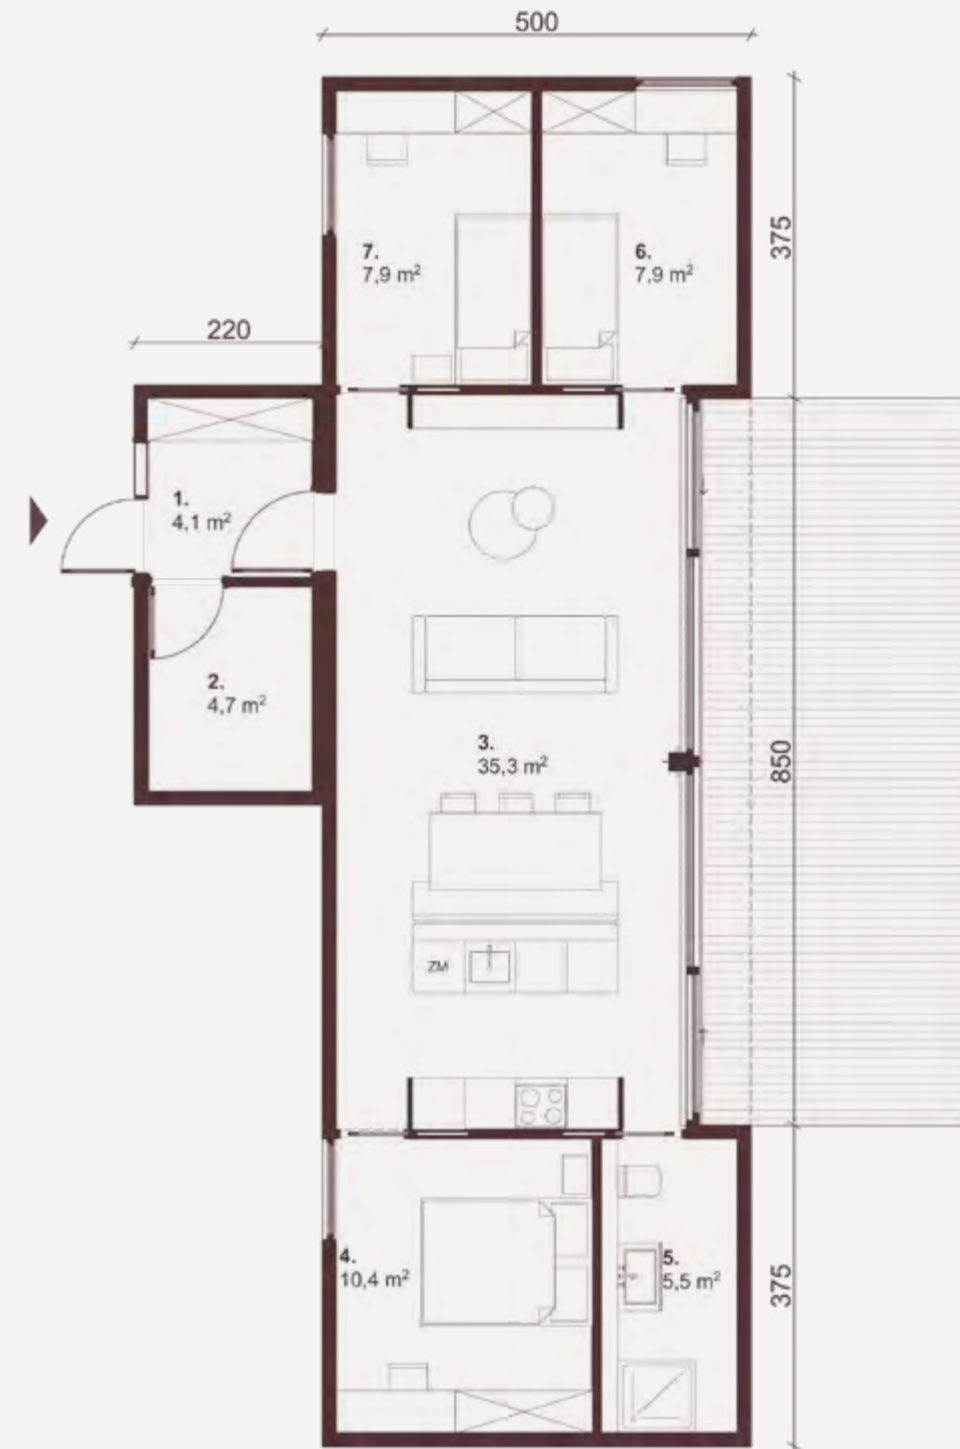

TLC Unit House 3

House 3

Basic module floor plan

When high-quality materials and modern craftsmanship merge into a perfect composition.

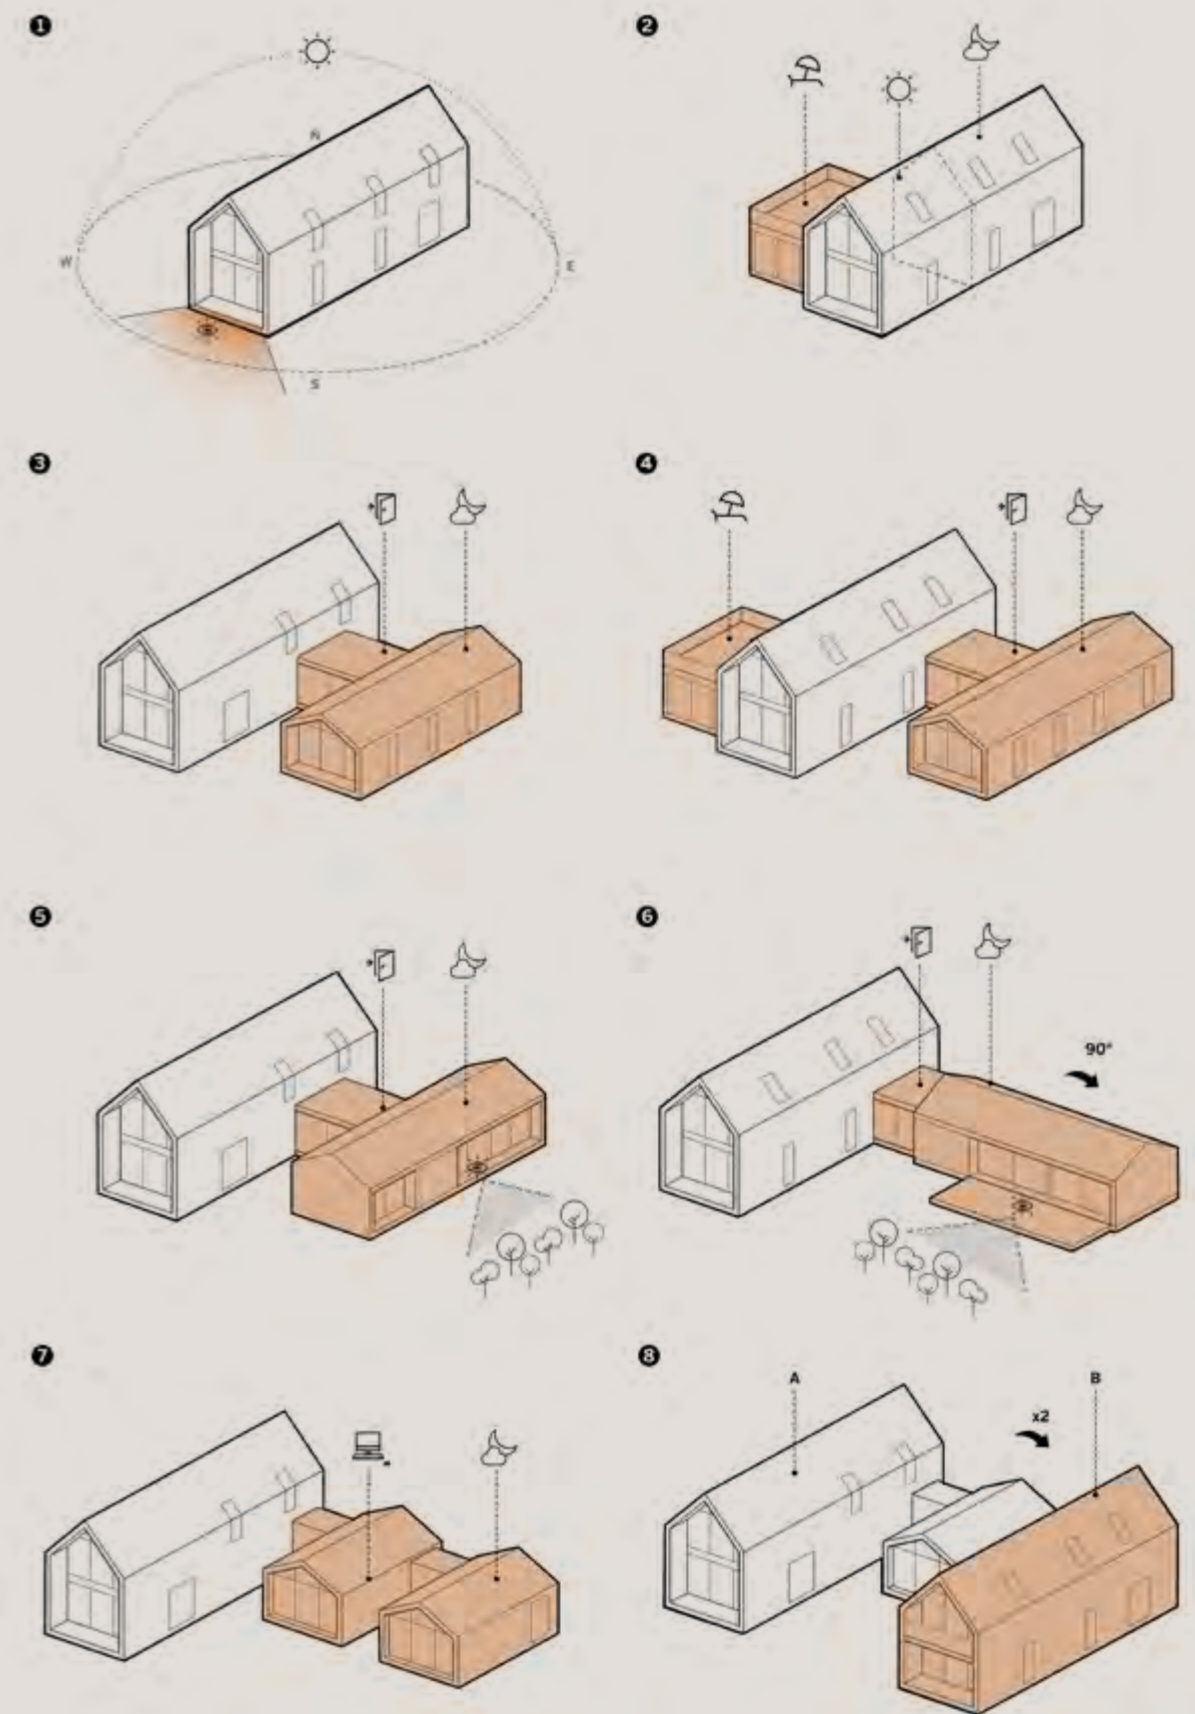

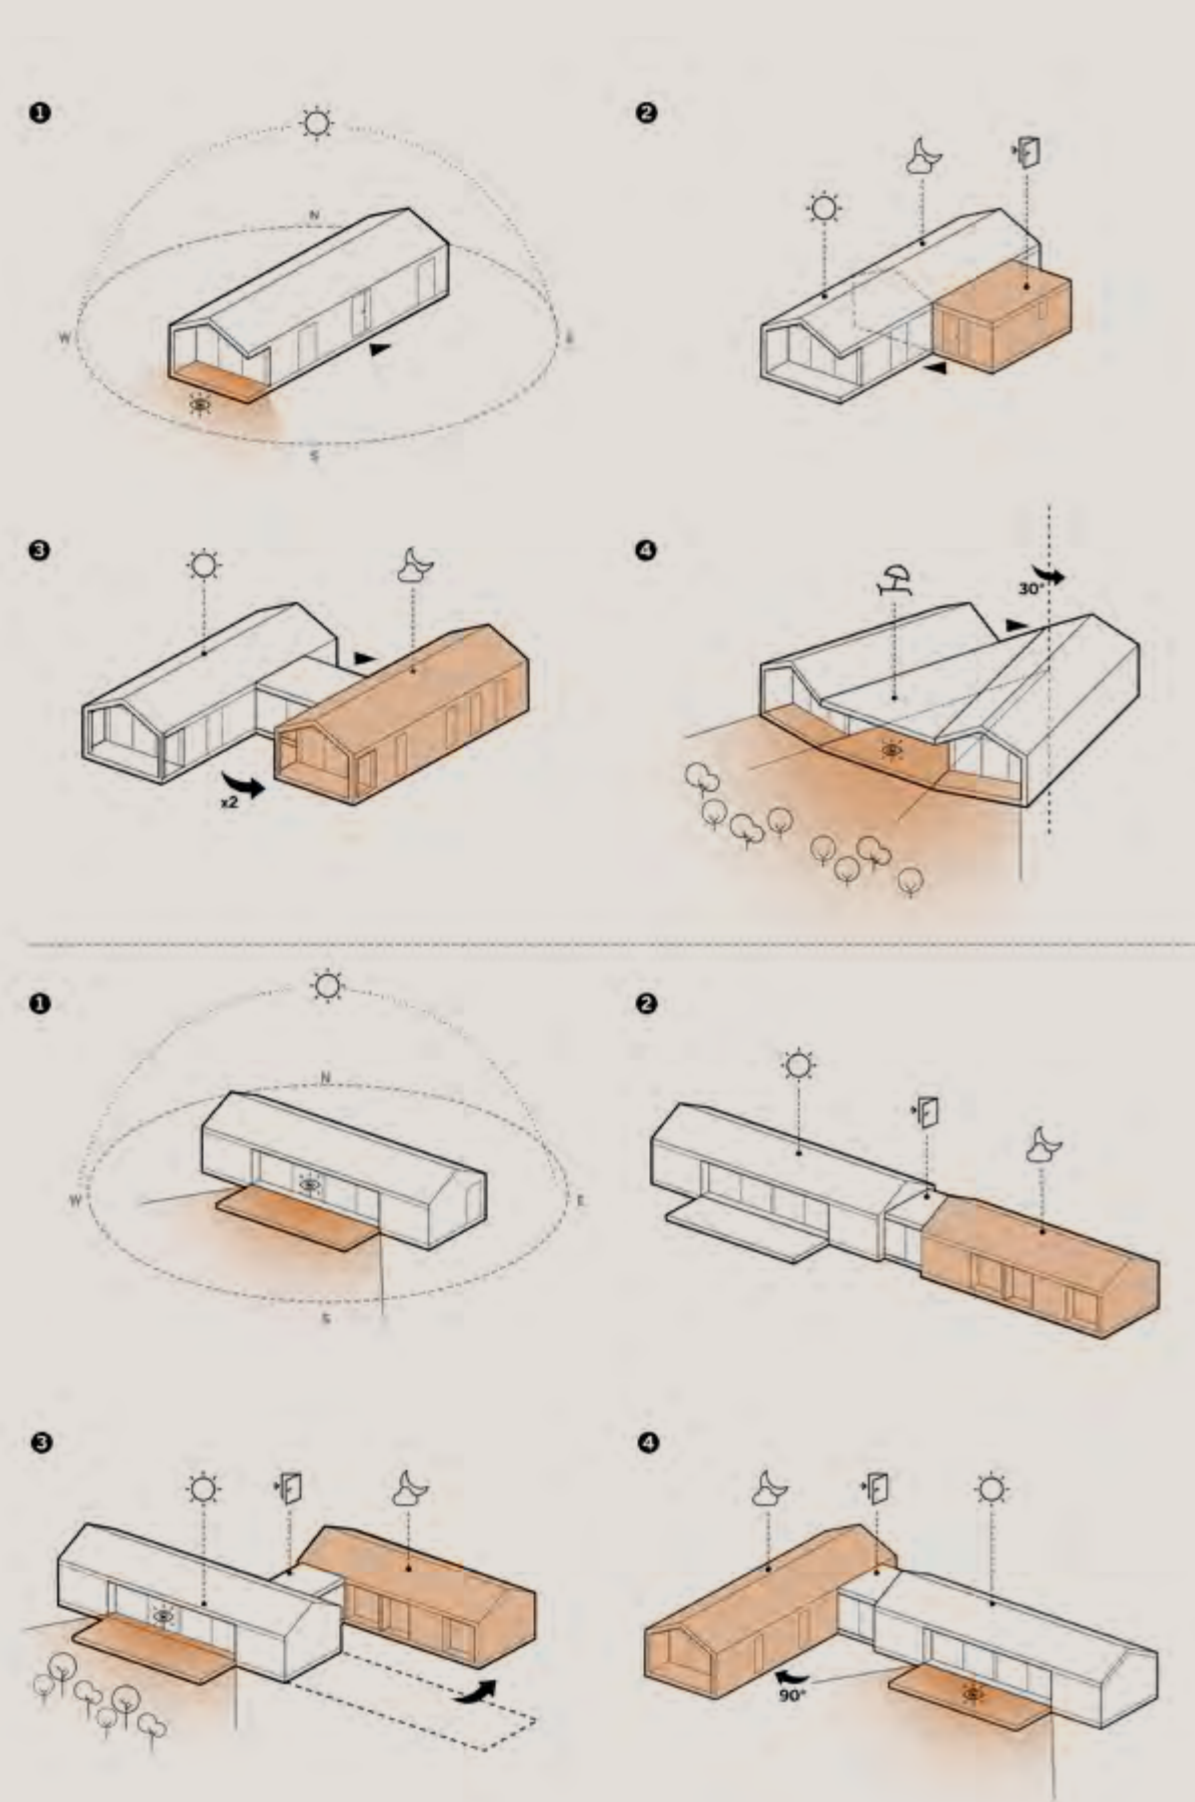

Winter-proof
premium chalet.

Design, dimensions and
functions adapted to every
recreational plot.

Using our modules, we can work together to design a home tailored to your needs.

Our system is flexible and also allows for future expansion over time. We could also present other possible configurations in the visualisations.
